

SIERRA MADRE  
The Wistaria Town;  
noted for fragrant or-  
chards, wide vistas and  
sheltering oaks. A city-  
country ideal home town.

# SIERRA MADRE NEWS

and Printing Press

SIERRA MADRE  
Elevation 800 to 1400  
feet; assessed valuation,  
\$4,000,000. Part of Pa-  
sadena High School dis-  
trict. Climate unexcelled.

VOL. 24, No. 44 SIERRA MADRE, COUNTY OF LOS ANGELES, CALIFORNIA FRIDAY, AUGUST 1, 1930

## NATURE WILL HELP SOLVE THE CITY'S WATER PROBLEMS

Generous Rainfall Fits Into  
Plan To Employ  
Spreading Ground  
By EARL J. LYNDE  
City Engineer of Sierra Madre

Any plans for the conserva-  
tion or salvage of waste flood  
waters must take into considera-  
tion many lines of investigation.  
The first would naturally be a  
study of rain-fall and stream run-  
off. Fortunately we have avail-  
able figures on the rainfall in  
Sierra Madre covering the past  
35 years and a study of these  
data provide some interesting  
facts.

In a previous article some of  
the physical advantages already  
possessed by the city in relation  
to this problem were pointed out.  
When we continue the investiga-  
tions to a study of rainfall we  
discover that our good fortune  
is still with us.

It is perhaps not generally known  
that the average yearly rainfall  
in this city over a period of years  
is 10 inches more than that of  
Los Angeles, the figure for this  
city being 25.66 inches per year  
while Los Angeles received an  
average of only 15.01 inches.

Inspection of charts prepared  
from rainfall figures makes it  
apparent that there are periods  
of 10 to 12 years in which the  
rainfall and water supply condi-  
tions are below normal followed  
by 10 to 12 years in which they  
are above normal, a complete  
cycle embracing about 23 years.  
The end of the last wet period,  
in which the rainfall was above  
normal and during which there  
was an accumulation of under-  
ground storage, was in 1916.  
Since then we have had a dry  
period in which the rainfall has  
been below normal. This dry  
period has lasted two years  
longer than any other dry period  
of record and it is anticipated  
that the coming rainy season will  
see the initiation of another wet  
period.

The problem of conserving flood  
waters resolves itself, therefore,  
not only into one of storage  
from winter to summer but as  
far as practicable from a wet  
period into a dry period. The  
ground water basins should be  
recharged during the wet period  
as far as possible so that a dry  
period may be approached with a  
full basin.

Nature has been kind to us  
in still another way in placing  
our underground basin so high  
above sea level. As has been  
stated before, the water level in  
practically all of the Coastal  
basins has been falling during the  
past 12 year dry period. Accord-  
ing to recent surveys, water is  
being pumped from below sea  
level in 162 square miles of the  
Coastal Plane and into some  
basins salt water is even pene-  
trating from the ocean.

Our basin, the bottom of which  
is at least 100 feet above sea  
level, is free from this danger,  
but one can readily imagine the  
ruination which would follow  
could such a thing happen to our  
main source of supply.

### Christmas Work Of The Local Red Cross Now Well On Its Way

Interesting activities of the  
Red Cross were revealed in the  
reports of committees submitted  
at a meeting of the Sierra Madre  
chapter held on Monday.

Mrs. H. H. Holland of the Red  
Cross production committee re-  
ported that the Christmas bags  
would be completed and ready to  
fill by the middle of the month.

Under the supervision of Miss  
Elizabeth Setinberger, chairman  
of the Junior Red Cross, the stu-  
dents of the Sierra Madre school  
have made a large number of  
small boy and girl dolls which  
are to be sent to foreign coun-  
tries by the Red Cross. The for-  
eign countries in turn send back  
dolls representing their people.  
This is one of the Red Cross  
methods of promoting interna-  
tional friendship and is only one  
of the ways in which the organi-  
zation is spreading good will for  
the United States in all parts of  
the world.

W. R. Humphries was appointed  
manager for the November Red  
Cross membership drive. Sierra  
Madre's quota has been set at  
\$750.

### Week-End Weather To Be Comfortable But Warm, And Fair

Col. Hersey ventured down  
from Sierra Madre's weather  
tower today and made his pre-  
diction for the week-end without  
reference to his instruments.

"I believe I am safe in saying  
that tomorrow and Sunday will  
be fair," he declared emphatically.  
"Sunday will not be quite as  
warm as Saturday but the tem-  
perature on both days will be  
well within the comfort-limit."

## University Issues Book By C. L. Camp

Sierra Madrean's Tenth Vol-  
ume On Prehistoric  
Animals

A well-known Sierra Madrean,  
Doctor Charles L. Camp, is the  
author of "A Study of the  
Phytosaurs," a book of 160 large  
pages published this month by  
the University of California. The  
book also contains numerous  
plates and maps.

The author, a son of Mr. and  
Mrs. E. W. Camp, of this city,  
is an associate professor in the  
university. He graduated from  
the Sierra Madre Grammar school  
years ago. His home was here  
from 1896 to 1920, but he was  
at Berkeley in the university four  
years, and then at Columbia and  
in the army until about nine  
months after the armistice, when  
he came home for a short time  
and has visited here frequently  
since, the last time just a few  
weeks ago.

His book is the tenth volume of  
"Memoirs" published by the Uni-  
versity since 1908, and he is the  
tenth person whose work has  
been selected for printing by the  
institution.

Phytosaurs were animals that  
became extinct some millions of  
years ago. They somewhat re-  
sembled alligators. The museum  
at Berkeley, chiefly through the  
searches made by Dr. Camp in  
Arizona and New Mexico, has  
more fossil bones of these beasts  
than are contained in all other  
museums.

Dr. Camp is the author or nine  
other works on reptiles and pre-  
historic animals, the best known  
of which is probably his "Reptiles  
of the Southwest."

## ADAMS LOSES TO PERRY IN FAST TENNIS MATCH

Only after smashing his racket  
in a furious rally to win his  
tennis match with Wayne Perry  
did Curran Adams go down to  
defeat in one of the best matches  
seen in the local tournament.

The first set of this closely  
contested match went to deuce,  
Perry winning 7-5. The second set  
went to Adams 12-10 after a  
terrific struggle but he paid a  
dear price, as he smashed his  
racket and was forced to finish  
the match with another racket to  
which he was not accustomed.  
The last set went to Perry 6-2.

Another good match is expected  
when Curran Adams meets Ran-  
dolph Wood tomorrow afternoon.  
Wood is playing in nice form and  
is favored to win the singles  
title.

Other singles matches will be  
Perry vs. Reitherman and Smith  
vs. Draman.

The Reitherman-Adams combi-  
nation will meet Perry and Blanke  
on Sunday afternoon. The win-  
ners of this match will play  
Smith and Wood three out of  
five sets for the doubles cup at  
3:30 p.m. on the same day.

### BIG DAY FOR IOWANS

The 400,000 Iowans in South-  
ern California and their friends  
have been invited to the mid-  
summer Iowa picnic and reunion  
at Bixby Park, Long Beach, all  
day, Saturday, August 9.

## Boy Seeks 'Fame' On Huge Cactus In The Desert

The mania for notoriety  
that has seized adolescent  
youths and feeble minded  
grown-ups and taken root  
in the inactivity of the va-  
cation season, causing them  
to do all manner of useless  
and nutty stunts to attract  
publicity, has pretty nearly  
reached the ultimate near  
Yuma, Ariz. Lawrence Pe-  
ters, 13-year old newsboy,  
dodged the spines and  
climbed well to the top of a  
giant Sahuaro cactus along  
an old immigrant trail  
where he is defying the  
withering desert sun in a  
"sitting" stunt. His third  
day on the lofty cactus he  
sat out a dreary desert  
electrical storm and a tem-  
perature of 110. A "ground  
crew" of youngsters also af-  
fected with the mania, pass-  
es him up food and keeps  
him company when he isn't  
playing solitaire.

His ambition is to be  
known as "the champion  
Sahuaro cactus sitter."

## Fore! First Golf Course Opens Today

Miniature Of 18 Holes Is One  
Of Finest In The  
Southwest

Sierra Madre's own miniature  
golf course, pronounced by de-  
signers and experts to be on a  
par with the most difficult and  
ingenious courses anywhere, will  
be ready for play this evening.

The 18-hole course, constructed  
by Harvey H. Steinberger at Au-  
burn and Central avenues, is the  
work of an experienced designer  
and is full of tricky holes and  
hazards of various kinds to test  
the skill of the most accom-  
plished player. Par for the course  
is 52.

In the construction of the  
course no expense has been  
spared to secure the best that  
was to be had in every respect  
and it is a credit to the town. The  
best felt has been used and every  
care taken to make each hole as  
interesting as possible. The land-  
scape and planting for the course  
have been skilfully done under  
the direction of the Ward Nur-  
sery and with the brilliant illu-  
mination so arranged as to cast  
no shadows, the course presents  
a particularly colorful picture  
at night.

The course has aroused inter-  
est on every hand and will un-  
doubtedly prove of genuine civic  
value in providing home enter-  
tainment for the people of Sierra  
Madre. Various organizations are  
laying plans for tournaments to  
be held on the new course. The  
Kiwanis tournament is scheduled  
for Monday and other clubs are  
lining up future dates.

There will be no formal cere-  
mony in the opening of the new  
course. Managers and publicity  
agents for several moving pic-  
ture actresses suggested that they  
would be glad to come out and  
drive the first ball off the tee  
and a dozen more of the local  
golf bugs have asked for the  
privilege. But Manager Stein-  
berger says everyone can't have  
the first shot, so he'll play it  
even and the first stick will be  
issued to the first player through  
the turnstile tonight. The play-  
ing fee will be 25 cents.

## Kiwanis Hears Of Plans To Build Up City Water Supply

Councilman Lester K. Layton,  
local candidate for the assembly  
from the 53rd district, was speak-  
er of the day at the Kiwanis  
luncheon on Tuesday. He dis-  
cussed the city's plans for water  
conservation and for increasing  
and insuring an abundant supply  
at this time to meet a growing  
population that is bound to fol-  
low contemplated improvements  
in Sierra Madre.

The local club will hold an  
amateur golf tournament on Har-  
vey Steinberger's newly opened  
miniature course at Central and  
Auburn avenues next Monday  
night. The tournament will in-  
clude play for both women and  
men.

## New School A Source Of Civic Pride

Among Finest And Best  
Looking In The State,  
Says Contractor

"Sierra Madre will have some-  
thing to be really proud of in its  
new school; it will be among the  
best looking, most modern and  
well equipped in California and  
this is the land of fine school  
plants," said J. C. Bannister,  
general contractor for the build-  
ing as he watched workmen pour-  
ing concrete on the new struc-  
ture at West Highland and Au-  
burn avenues yesterday.

Incidentally the contractor, who  
has erected many of the most  
pretentious school and office  
buildings on the Pacific coast, re-  
lieved the minds of many citizens  
who are anxious over reports that  
the beautiful trees in the parking  
about the school site are to be  
sacrificed.

"An earnest effort will be made  
to save all of them," said Mr.  
Bannister, "and you may be sure  
that only those that actually im-  
pede construction will be taken  
out, if any."

The school will not be com-  
pleted until some time between  
November 1 and 15, according  
to the contractor, so that the  
buildings that many of the pupils  
thought they were saying fare-  
well to at the close of the last  
semester will be occupied for at  
least two months this fall.

"The building is one of the  
best planned structures of its  
kind in Southern California,"  
said Bannister as, plans in hand,  
he gave instructions to a sub-  
contractor. It will have a Spanish  
tile roof built without trusses  
and reinforced with redwood.  
There will be ornamental iron  
grills on the windows, which will  
be of graceful arch type to con-  
form to the Spanish architecture  
of the whole.

"The floors throughout the en-  
tire plant will be of reinforced  
concrete and this is only one of  
the many features which makes  
the Sierra Madre school one to  
be proud of.

"In its construction we em-  
ployed as many workmen as pos-  
sible from this city and neighbor-  
(Continued On Page Eight)

## Lived Again 'Mid Scenes Of Her Youth

Sierra Madre Woman Hears  
Lecturer Tell Of Celeb-  
rities She Knew

While Julian Hawthorne was  
delivering a lecture at the Uni-  
versity of Southern California re-  
cently about the literary atmos-  
phere in which he was raised,  
of his father's contemporaries and  
the scenes of his childhood, he  
little knew that in his audience  
was a woman who had spent her  
girlhood in the same community  
and whose father had owned  
"Wayside," the home of Na-  
thaniel Hawthorne, author of  
"The Scarlet Letter" and other  
equally famous works, and fa-  
ther of the lecturer.

Julian Hawthorne's most inter-  
ested listener was Mrs. J. C.  
Dickson, of 169 West Montecito  
street, Sierra Madre, who well  
remembered Emerson, Louisa  
M. Alcott, celebrated authoress  
and other famed persons of whom  
the lecturer spoke. She had jour-  
neyed down to the University to  
live again among the familiar  
people and places that were  
painted in word pictures.

"I knew Louisa M. Alcott and  
her father and mother personally,  
and I remember Emerson as an  
old man, bent, with a benign,  
pleasing countenance," said Mrs.  
Dickson, reminiscing about her  
girlhood days spent at "Wayside,"  
once owned by her father and  
now historic as the home of Na-  
thaniel Hawthorne during the  
last 12 years of his life.

"The house is a rambling, pic-  
turesque, frame structure of 12  
rooms. Almost every family who  
ever lived there built on some  
addition." Hawthorne built a  
square "Tower Room," above the  
(Continued On Page Six)

## ROBBERS SLUG VISITOR HERE; STICK-UP FAILS

An attempted robbery in a pri-  
vate lane just off West Central  
avenue about 1 o'clock Saturday  
morning was foiled when H. Pet-  
tijohn, of 1803 South Bushnell  
street, Pasadena, grappled with  
bandits who sought to rob him  
and Miss Margaret Butler of 91  
East Villa street, Pasadena.

Pettijohn and Miss Butler were  
seated in his automobile when  
two masked bandits ordered them  
to "stick 'em up." One of the  
bandits seized Miss Butler's purse  
but dropped it when Pettijohn  
grappled with the other bandit,  
who struck him with a blackjack  
and fled.

Miss Butler helped Pettijohn  
into his car and drove him to the  
home of Dr. E. D. Jackson, who  
pronounced his injuries not seri-  
ous.

It was the first report of a ro-  
bbery, attempted robbery or as-  
sault that has been reported to  
the Sierra Madre police for many  
months, although Los Angeles  
and many of its suburbs had an  
epidemic of stick-ups and bur-  
glaries during July that has the  
police of the metropolitan district  
greatly concerned.

## City Turns Out Class Of Air Pilots

Kelterborn And Glider Pass  
Tests As Others Pre-  
pare For Tests

Adolph Kelterborn, Sierra  
Madre glider expert, is now a  
licensed glider pilot, following  
tests which he took at the Mid-  
wick Estates field under the su-  
pervision of the United States  
Department of Commerce on  
Wednesday, July 23.

Besides a glider pilot license,  
Kelterborn has a glider license  
which certifies to the trustworthi-  
ness of his ship, which was built  
here in Sierra Madre by Kelter-  
born and fellow enthusiasts. The  
tests which he took included com-  
plete left and right and S turns.

Kelterborn, who built and flew  
here the largest glider in the  
world only to have it smashed  
later during a flight at Redondo,  
is the first of a group of air  
minded Sierra Madreans to se-  
cure licenses. Al and Joe Belohla-  
vek and Frank Foster, who  
helped build both of Kelterborn's  
planes and who have flown much  
with him, are to make qualifying  
flights at Midwick Field this af-  
ternoon and will probably be full  
fledged pilots by sundown.

## LOUIS KARGER TAKES AN EAGLE ROCK BRIDE ON TRIP TO SAN DIEGO

Louis Karger, well known mem-  
ber of the city fire department,  
greatly surprised his friends by  
slipping away to San Diego on  
Saturday, July 19, when he and  
Miss Amelia Karger, of Eagle  
Rock, were quietly married.

Mr. Karger has been a resi-  
dent of Sierra Madre for the  
past 12 years, having been em-  
ployed at the Palm Nursery on  
East Central for 10 years.

The newly married couple will  
reside at 59 Esperanza street  
where Mr. Karger is preparing a  
seven room house for occupancy  
on his half acre lot there.

## FATHER OF SIERRA MADRE WOMAN DIES AT NATION'S CAPITAL

Former Congressman Russell  
Davis, of Minnesota, father of  
Mrs. Walter Poehler, of 702 Man-  
zanita avenue, passed away dur-  
ing the early part of the week in  
Washington, D.C.

Mr. Davis, a native of Illinois,  
went to Minnesota in 1852 and  
with his father and uncles, aided  
in the pioneering activity of the  
Southern part of the State. He  
studied criminal law and became  
attorney for Le Sueur County.  
Serving in both houses of the  
Minnesota legislature, he was  
later elected to Congress, where  
he served from 1892 to 1924.

His wife died two years ago.  
He is survived by two children,  
Mrs. Walter Poehler of this city  
and Major Russell H. Davis of  
the United States Marine Corps,  
stationed at Quantico, Virginia.  
Funeral services and interment  
will be conducted today at St.  
Peter, Minnesota, his old home.

## City Plans 3 Big Events In City Park

Garden Party, Band Concert  
And Feature Dance  
All In One Week

The high spot in Sierra Madre's  
season of outdoor community en-  
tertainment will be reached next  
week with two entertainments  
and a dance in the City Park as  
part of the program arranged by  
the Chamber of Commerce.

A garden party, sponsored by  
the local chapter of the American  
Red Cross is scheduled for Tues-  
day night.

The Volunteer Firemen's As-  
sociation will sponsor an enter-  
tainment and concert by the  
Pasadena Elks band on Thurs-  
day night.

Friday night comes the regu-  
lar dance, with some special fea-  
tures, as there will be special  
music and features at tonight's  
dance.

The garden party to be spon-  
sored by the Red Cross on Tues-  
day night in the city park will  
be conducted in a very informal  
way. Decorations, colored lights  
and special garden furniture will  
make the scene festive and the  
entertainers will be members of  
the party, appearing at intervals  
during the evening.

### Varied Program

The Misses Jeannerette, of  
Pasadena, will offer a musical  
number. Marie is a whistler and  
will be accompanied on the piano  
by her sister Vera. She will re-  
produce the songs of various birds  
of the Southland and the tropics.

Vera Jeannerette, an accom-  
plished violinist, will play several  
numbers. Her accompanist will  
be Irwin Clarke of Pasadena.

Harold Hall and his lively piano  
accompanist will be on the varied  
program. Miss Frances L. Bull,  
Pasadena singer, will contribute  
a number of old-fashioned selec-  
tions.

Amusing and striking imper-  
sonations will be offered by Miss  
Geraldine Anderson, of Pasadena.  
Her work is well-known in this  
section and of great interest to  
the younger element.

Prof. Gustave Riherd and his  
Congregational Church orchestra  
will complete the musical pro-  
gram.

### Firemen's Offering

Red Cross equipment recently  
assembled for use in mountain  
fires or disasters will be on ex-  
hibit at the garden party. This  
(Continued On Page Six)

## Voters Here Set Record For Primary

More Sierra Madreans Are  
Registered Than  
Ever Before

Apparently more Sierra  
Madreans are interested in this  
month's big State-wide primary  
election than were concerned  
about the election of a majority  
of the City Council in the election  
of last April.

The high water mark in the  
registration and enrollment of  
voters was reached here last  
Saturday, the last day for the  
qualification of voters before the  
primary. The number was run up  
to 1800, as against 1560 who  
were registered for the municipal  
election and 50 more than were  
qualified to help decide the ex-  
citing recall election of last year.

In the final days of the regis-  
tration season 60 persons who  
had previously refused to state  
their party affiliations and would  
therefore have been unable to  
vote at the primary of August  
26 or who were enrolled as mem-  
bers of some other political faith,  
changed their enrollment so that  
they may receive Republican bal-  
lots and help decide the wild  
scramble for office within that  
party.

The fact that in Councilman  
Lester K. Layton, who is seeking  
the Republican legislative nomi-  
nation in the 53rd Assembly dis-  
trict the city for the first time  
in its history has put forth  
a candidate for other than a  
local office, is credited with  
having had much to do with the  
increased registration. To see the  
local candidate go over has be-  
come a matter of deep local pride  
and interest.

Incomplete figures indicate that  
there will be nearly 800,000 citi-  
zens of Los Angeles county  
qualified to vote at the primary.  
In the Presidential primary of  
two years ago the registration  
was 789,965. Complete registra-  
tion figures for the City of Los  
Angeles shows 445,254 qualified  
electors. It is estimated that 60  
per cent of this registration will  
go to the polls on the day of  
the primary election.

## State Will Pack 40,000,000 Cases Of Canned Goods

California crops packed this  
year will require the use of 710-  
000,000 cans. This estimate is  
made by the research department  
of the National Canner's Associa-  
tion. It is predicted that there  
will be packed 20,000,000 cases  
of fruit and 15,500,000 cases of  
vegetables, with an average of  
20 cans to the case.

## WHOLE MALE POPULATION OF UPLAND BEGINS RAISING A 40-DAY CROP OF WHISKERS

It won't exactly be illegal to  
shave or get shaved in Upland  
between August 1 and Admission  
Day—September 9—but any man  
that does it will be regarded as  
a disloyal citizen and completely  
out of step with the Foothill city  
and its people. Virtual ostracism  
is promised the offenders. And  
the American Legion post has  
appointed a committee of vigi-  
lantes to seek them out.

The ban on the use of razors  
became effective last midnight.  
When it is raised at noon 40  
days later Upland's Pioneer Pil-  
grimage, staged each year on the  
anniversary of California's ad-  
mission to the Union, will be in  
full swing.

The unshaven men are to give  
a background-color—to the oc-  
casion which is in honor of the  
trail blazing pioneers who, of  
course, landed on California soil  
in covered wagons and with flow-  
ing beards. Pioneers from every  
section of California have and  
will be invited to Upland to listen  
to and tell stories of their early  
adventures and early experiences  
here. An interesting program has  
been arranged which includes  
appropriate exercises at the Ma-  
donna of the Trail monument in  
beautiful Euclid avenue.

All the men in the community  
were invited to a picnic on Tues-  
day evening when the whisker  
feature of the celebration was

arranged. The American Legion  
fed them and as they ate they  
pledged themselves to forget the  
razor for 40 days. They just  
couldn't let such a wonderful op-  
portunity get by, so they inci-  
dentally arranged a "whiskerino"  
contest.

The whole male population, in-  
dividually, is to have its "before"  
picture taken today after the  
last shave yesterday. The "after"  
picture is to be taken September  
9 before the barbers and the  
safety razors go back into action  
on the 40-day crop and the  
"Brother Davids" become just  
plain Uplanders again.

And in the meantime, on the  
morning of the celebration awards  
are to be made in the "whisker-  
ino" contest, when prizes will be  
given for the heaviest beard, the  
thinnest beard, the best looking  
moustache and sideburns, the  
longest beard, the best goatee  
and the most novel beard.

The jury of award will be com-  
posed of women.

A woman photographer is to  
take the "before and after" pic-  
tures so that she may get a  
slant on the vanity of men.

And though nothing was offi-  
cially said about foregoing hair-  
cuts, a committee of the vigi-  
lantes quietly suggested to the  
town barbers that it would be  
well for them to take good, long  
vacations or find some other use-  
ful employment for 40 days.

# ARE YOU PLANNING--PLANTING--FOR THE FALL FLOWER FESTIVAL

## ALONG THE FOOTHILLS

Beet crop harvesting will begin shortly in Puente. Irrigation was completed last week.

Assessed valuation in Arcadia has decreased almost a million dollars in the last year.

Puente is the only old-fashioned down in the San Gabriel valley, if not in all of Southern California. It has no miniature golf course, nor one under construction.

San Marino has entered a team in the Sierra Night Baseball League and its citizens are enthused over the pastime, the home team having won two consecutive games.

Baldwin Park is squawking vigorously about the \$20,000 fire protection budget laid against that community by the county fire warden.

Sunland will have a special election in September on the question of forming an assessment district and vote bonds to buy additional land for Sunland park.

Packers are offering Hemet growers a guarantee of \$25 per ton for No. 1 peaches, with the possibility that the final price may be a little more. The valley crop of peaches is light, but of good quality.

Assurance of the extensions of Colorado street and Huntington drive in Arcadia through the Baldwin ranch has renewed agitation for the widening of the drive from Second avenue west to the street car tracks.

The Pinon Pines route was officially adopted Monday by the Riverside county supervisors for the Hemet-Coachella mountain highway, thus ending a controversy of more than a year's standing.

Pomona is still shipping Valencia oranges. Including 42 carloads that went out in the last week 354 cars of Valencias have been shipped this year, the weekly average being 40 cars. Lemons have been going out of the same place at the rate of 14 cars a week.

Several hundred expert horse shoe pitchers of California are soon to foregather at Covina for a horse shoe pitching jamboree of three days duration and the neighboring city it preparing to welcome them. Long Beach will send the biggest delegation, of course.

A handful of Upland's voters decided the special election at which continuation of its band concerts and upkeep of the park were decided. By a vote of 332 to 120 the people voted a tax levy of 20 cents per \$100 of valuation for upkeep of the parks, but the music item failed for want of the necessary two thirds vote.

Many peach growers in the Ontario district have thought better of their early resolution to hold out for \$30 a ton for their peaches or let them rot on the ground, and the local canneries started on the 1930 pack with a promise that they would pay the highest price conditions afford, the figure to be determined later. The Southern California crop is estimated at 12,000 tons.

Dissatisfaction with the government of Glendale which renewed agitation for annexation to Los Angeles has finally resulted in the circulation of petitions for the recall of Mayor C. E. Kimlin, and Councilmen C. J. Hatz and Sam Davis. Subdividers and real estate operators are accused of having inspired the movement because of the Council's unwillingness to initiate further municipal improvements.

There has been a radical change in the appearance of Temple City for the better—since the main thoroughfares were planted with the feathery cocos plumosa palms. The improvement was so marked that property owners along several of the residential streets bisecting the business thoroughfares have banded themselves together to continue the planting on their avenues.

Upland City Council has tentatively fixed the 1930-31 tax levy at \$2.13 per \$100 of valuation, a decrease of 12 cents over the 1929-30 rate.

Los Angeles county supervisors are considering an ordinance requiring that the Tom Thumb courses in unincorporated territory shall "outen the lights" at midnight. Pasadena's trustees have before them an ordinance for the regulation of its baby courses.

The LaCrescenta and neighboring valleys are greatly excited. On top of the announcement by the Glendale and Montrose railway that it will discontinue service to and cut off the only transportation that Montrose enjoys, the motor bus company that has been serving La Canada has raised the temperature of the town council and citizens of that beautiful community by announcing that a more direct route will be taken by its busses after today and that service to La Canada just won't be. Busses are the town's only transportation.

The Hemet News wants Col. H. B. Hersey to move there or if that cannot be, then the government to send some less famous weather observer to the town to broadcast its temperatures so that the world may know that Hemet is really a summer resort. It boasts that Hemet is closer to the sea than Riverside, San Bernardino or Redlands, enjoys an altitude of 700 feet above these towns and gets the cooling evening breezes from San Jacinto mountains in the resorts of which they had log fires every night last month.

## ...Economical Transportation for you!

**R**IDE the Big Red Cars next time you come to town. It is the most economical way. Users of the Monthly Pass and Commutation tickets travel for but a fraction over ONE CENT per mile... lower, decidedly than the cost of driving your own car.

Lean back in the comfortable seat... relax, read, or just enjoy the sights along the way.

Safely...swiftly, a trained man drives you to your destination...no traffic jams...no parking problems.

From all parts of the Southland, schedules have been carefully arranged to meet with your convenience.

Why not give the Big Red Cars a trial on your next trip to town? Learn their decided advantages. Call the local Pacific Electric agent for schedules.

## Fire Flames

By One of the Boys

UR practices at fire drill of late would indicate conspiracy between the Big Chief and our extremely handsome Assistant Chief. Long before time for the truck to leave the fire house, Bill and George hold a conference and arrange the old "cut and dried" stuff. This last practice night, George said to Louie Karger, Jim Heasley, Roy Walsworth and Frank Lovell, "You four fellows hook up to the plug and also the pumps. The par on this is three minutes." As the truck neared the plug, Walsworth pulled off the hose, Lovell hooked up to the plug, Heasley and Karger did the rest and outside of a few minor mistakes, the work was done well and in less time than designated. Then to show the boys how it should be done the Assistant Chief picked on Don Hosford, Tom Schwartz, Steve Petzel and himself. Handsome Harry Peterson drove the truck for them and they commenced. "Now watch us closely all you fellows," yells George, as he pulled off the hose. Hardly had he the hose off when Tom turned on the water and water flew in every direction. Away flew the spectator pupils along with the well dressed police department. With much struggling and laborious effort, George and Don finally succeeded in getting water to the nozzles, then to the pumps. After a strenuous bat-

tle, they succeeded in connecting to the pumps. The water was turned then in that direction and truck Number One never before had such a shower of water, and laughter. "Ho! H! Ho!" laughs Louie, "Schust wait till der Chief finds out, how you vashed der truck, Ho! Ho! Ho! —oh dot's a goot one."

Our meeting turned out to have a 100 per cent attendance. We don't know but that the knowledge that it was Louie's night to feed had a lot to do with this.

A surprise to some of us, was to learn that Louie is now married. We must admit, he got away with it, but we may get him yet.

Another surprise and a very regretful one was the reading of the resignation of Gordon Brooks. During his few years as a member of the fire department, we have all learned to care a great deal for Gordon. He has always showed willingness on his part and his willingness was never limited and his jovial manner assisted greatly in retaining the present brotherly spirit that exists among the members of the Sierra Madre Fire Department. He states that it is with sincere regret that he drops out as an active member

and we believe him. His resignation was due to his business relations prohibiting the time devoted to fire department work.

In his place we have Harlan Gerlach, who has been mentioned in this column on many occasions. Harlan is one of our local police, making the police of Sierra Madre all firemen. Heretofore Mr. Gerlach has proven to be a very good policeman and a good sport. He shall be "razzed" and "rode" many times to try his patience.

This finds the chief and Lovell in San Francisco attending the California Firemen's Association convention. There are a lot of us who would like to be there but, but, some of us have to stay here to put the FIRES OUT.

**MRS. KARNOPP'S FEW WORDS IN THE NEWS GET QUICK ACTION**

"You may discontinue by classified ad in THE SIERRA MADRE NEWS offering a room and board; the very first insertion brought a most desirable person to my home," phoned Mrs. Gertrude Karnopp of 49 South Baldwin avenue on Monday. Her classified "ad" appeared in the last issue of THE NEWS.

## Meeting the Needs of Millions of People

The low-priced automobile has brought greater opportunity and added hours of recreation to millions of men and women.

**B**ECAUSE the automobile is such an important factor in the lives and prosperity of so many people, the purpose of the Ford Motor Company is something more than the mere manufacture of a motor car.

There is no service in simply setting up a machine or a plant and letting it turn out goods. The service extends into every detail of the business — design, production, the wages paid and the selling price. All are a part of the plan.

The Ford Motor Company looks upon itself as charged with making an automobile that will meet the needs of millions of people and to provide it at a low price. That is its mission. That is its duty and its obligation to the public.

The search for better ways of doing things is never-ending. There is ceaseless, untiring effort to find new methods and new machines that will save steps and time in manufacturing. The Ford plants are, in reality, a great mechanical university, dedicated to the advancement of industry. Many manufacturers come to see and share the progress made.

The greatest progress comes by never standing still. Today's methods, however successful, can never be taken as wholly right. They represent simply the best efforts of the moment. Tomorrow must bring an improve-

ment in the methods of the day before. Hard work usually finds the way.

Once it was thought impossible to cast gray iron by the endless chain method. All precedent was against it and every previous experiment had failed. But fair prices to the public demanded that wasteful methods be eliminated. Finally the way was found.

A better way of making axle shafts saved thirty-six million dollars in four years. A new method of cutting crankcases reduced the cost by \$500,000 a year. The perfection of a new machine saved a similar amount on such a little thing as one bolt. Then electric welding was developed to make many bolts unnecessary and to increase structural strength.

Just a little while ago, an endless chain conveyor, or almost four miles long was installed at the Rouge plant. This conveyor has a daily capacity of 300,000 parts weighing more than 2,000,000 pounds. By substituting the tireless, unvarying machine for tasks formerly done by hand, it has made the day's work easier for thousands of workers and saved time and money in the manufacture of the car.

All of these things are done in the interest of the public — so that the benefits of reliable, economical transportation may be placed within the means of every one.

MOONEY-BILLINGS NEAR DRAMATIC CLIMAX BEFORE CALIFORNIA SUPREME COURT

One of the most extraordinary sessions in the history of the California Supreme Court opened Tuesday when a hearing designed to afford John MacDonald opportunity to declare he gave perjured testimony against Thomas Mooney and Warren K. Billings, got underway. Left is a picture of the scene of the explosion where 10 people were killed. Upper center: Charles M. Fickert, district attorney, who prosecuted the case. Lower center: Mrs. Rena Mooney and Chief Justice Waste, who is hearing the case. Right: General view of the Preparedness Parade at San Francisco in 1916. Mooney and his wife are indicated in picture by arrows, and claim they were on this roof when the bomb was hurled six blocks away.

*In a Social Way*

**M**RS. James Clarence Rihard of Pasadena has announced the approaching marriage of her daughter, Martha Dele Rihard, to Arthur L. Fisher, on Monday evening, August 4, at the First Baptist church of Pasadena, at 9 p.m.

Miss Rihard will be remembered as a resident of Sierra Madre for some years before moving to Pasadena two years ago with her mother and brothers. Her eldest brother, Gustave D. Rihard, is a prominent pianist and teacher in this city. Mr. Rihard will give his sister in marriage.

Miss Rihard has many friends in Sierra Madre and although invitations are issued only to close friends and relatives, all friends of the bride and groom, or of Miss Rihard's family, are invited to attend.

Attendants of the bride are Miss Roberta Scott, Miss Rihard's cousin and a resident of the city, as maid of honor; Mrs. Douglas Mackenzie as matron of honor, and the Misses Margaret and Mildred Fisher, sisters of the groom, Miss Treva Scott, also a cousin of the bride and Miss Julia Spencer as bridesmaids. Ushers will be Messrs. Leland Clarke, Leroy Erickson, Bernard Weichion and Marvin Ives. Miss Virginia Roess of Sierra Madre will sing at the wedding. Best man is to be Guy S. Rihard.

**BRANDIMORE'S ENTERTAIN AT LUNCHEON**

Mrs. Joseph H. Brandimore, of Bella Vista Terrace entertained on Monday with a luncheon for several of her friends from Los Angeles and Pasadena. Bridge was played in the pergola and a croquet game was indulged in on the terrace courts. Light refreshments were served on the lawn during the afternoon.

**Funeral Services For Mark Edward M'Ardle**

Rosary service for Mark Edward M'Ardle who died at his home at 245 West Laurel avenue, Saturday evening, July 26, was conducted Monday evening at the Sierra Madre Funeral Chapel of J. T. Farrell, by Rev. Father Hyacinth Clarey, who also officiated at the funeral services held at St. Rita's church at 9 o'clock Tuesday morning.

Mr. M'Ardle had been a resident of Sierra Madre for the past two years, coming from Redondo Beach, where he had been engaged in the real estate business for six years. He was born at Sweet's Corners, Ontario, Canada, March 18, 1873, and married Miss Anna Sullivan at Clyde, N. Y., December 25, 1902.

Mr. M'Ardle is survived by his wife, one sister, Mrs. J. A. Kenney, and a brother, Herbert M'Ardle, both of whom are now living at Jones' Falls, Ontario.

Night, Elgar's "Salut d'Amour" was played as a violin solo by Henri van Praag.

Mr. Vincenti is a graduate of Stanford University and the Stanford Law School. He passed the State Bar Examination this spring. The bride is a graduate of Pasadena High School and also of the Pasadena Playhouse School of the Theatre. After a motor trip along the coast, the couple will be at home to their friends after August 11, at 705 East Woodbury Road, Pasadena.

**Crown City Goes Ahead Like Magic**

Passes Long Beach As A Taxpayer When Its Values Go Skyward

The taxable valuation of Pasadena has gone up like a sky rocket. The tax books now being written from the assessment just completed by County Assessor Hopkins shows an assessable valuation of \$222,126,425, as against \$177,673,800 for last year. Its riches and importance as a taxpayer now exceeds Long Beach by about \$24,000,000, whereas last year the assessable valuation of the beach city exceeded the foothill community by more than \$30,000,000. The valuation placed on the Crown City for the purpose of taxation this year is \$212,024,615 as against \$201,657,250 last year.

Long Beach real estate depreciated about \$7,000,000 while Pasadena increased about \$10,000,000. But increased values of securities and solvent credits gave Pasadena the biggest boost.

Los Angeles, of course, leads the assessment rolls with a total of \$2,538,254,490, which is more than half the aggregate valuation for the entire county.

**Club In Hand, Big Corporation Goes After Depression**

Instead of squawking about business depression and moaning with its face to the wall, the R.C.A.-Victor Corporation has joined other up and doing business concerns and is out to do battle with the calamity howlers.

It has added 7,000 employees to its payroll, put on three working shifts of 8 hours each, increased its appropriation for advertising and announces that it will achieve a production of 9,000 radio sets a day during August.

The so-called business depression is purely physiological and a false impression of the American public's buying power, according to E. E. Shumaker, president of the concern.

"If the pessimists would only go back to work and stop crying they will realize that there is nothing fundamentally wrong with either business or the country," he says.

At Long Island City, New York, President Masterson of the Chico Co., expressed himself along similar lines in announcing that his corporation was putting on a full night force to operate the company's plant at 24-hour capacity.

It is astonishing how soon the whole conscience begins to unravel, if a single stitch drops; one little sin indulged makes a hole you could put your head through.

Charles Buxton.

## Favorite Dishes of Sierra Madreans

**TWO SALADS** that are favorites with well known Sierra Madre hostesses are particularly appropriate for the summer season. That of Mrs. Wilbur Thayer Sr., is a fruit salad and the recipe follows:  
Ingredients: 2 tablespoonsful gelatin, 1-4 cup hot water, 1-2 cup sugar, 1-2 cup pineapple or lemon juice, any three fruits (such as oranges, bananas and strawberries).

Procedure: Soak gelatin in water. Add sugar and fruit juice, strain and cool. When mixture begins to congeal, add the three fruits, stirring occasionally to blend them. Place in mold to chill. Serve with mayonnaise on lettuce leaves. This is the egg salad recipe of Mrs. C. H. Baker.

One quart of midget or sweet pickles, one dozen hard boiled eggs, both chopped fine. Add one pint of finely chopped cabbage and a little salt and pepper. Mix all with a cup of thick sweet cream, or whipped cream and serve on crisp lettuce leaves.

## BUSINESS LIKENED TO 3-MOTORED PLANE BY ROGER W. BABSON

"Business is closely similar to a tri-motored airplane; one of the engines is advertising; another is personal salesmanship; and another is the motive force of primitive needs.

"You kill the advertising engine, the business can neither speed nor climb.

"The value of carefully established advertising, in overcoming sales resistance, is too well-known and proved to require further comment."—Roger W. Babson, noted economist and statistician.

## Good Time To Look At Saturn Through Big Lens On Mt. Wilson

Following the Friday evening astronomical lectures at Mount Wilson, visitors are permitted to view the heavens through the 60-inch telescope at the observatory. Saturn is in an excellent position to be seen through the telescope just now, and may be viewed to advantage during the early part of August. It is said that it will be some time before such a good chance to see the planet with its rings will occur again.

## Three Small Dams To Be Built In The San Gabriel — Eventually

What remains of the \$25,000,000 the taxpayers of Los Angeles county set aside for the construction of the San Gabriel high dam, or about \$21,000,000, will probably eventually go into the construction of the three smaller dams that were proposed when the huge bungle came to light. Sites for the smaller dams have been selected and the Supervisors are committed to the project.

## Birthday Greetings

THE NEWS extends birthday greetings and its best wishes this week to the following Sierra Madreans:

Bernice Roe July 26  
Elaine Butts July 27  
Walter Annas July 27  
Justine Picton July 28  
Elizabeth Purcell July 29  
Leila Embree July 29  
Frances C. Robertson July 29

struction of the three smaller dams that were proposed when the huge bungle came to light. Sites for the smaller dams have been selected and the Supervisors are committed to the project.

But there will be no hurry about it. A long drawn out legal proceeding will be resorted to before the work is started to determine whether or not, the money having been appropriated for a single high dam, it may be legally used for the substitute proposal.

E. F. Eaton, County flood control engineer, has written the Supervisors a letter vigorously denying the charge made before the grand jury that records of earth excavated for the hoodoo high dam were falsified and that the county paid for the excavation of 273,000 yards of earth that are still at nature left it at the abandoned dam site. He urged the supervisors to immediately employ engineers to check the work so that his department may be vindicated.

## THATCHER'S SPONSORS LEADING CITIZENS OF SAN GABRIEL VALLEY

The list of 30 well known taxpayers of the San Gabriel Valley who sponsored the candidacy of Hugh A. Thatcher, of Pomona, for Supervisor from the First District, includes a number of the most representative citizens of the district. As released from Mr. Thatcher's headquarters yesterday the list follows:

C. C. Caves, Mayor, J. A. Alford Jr., attorney, Raymond E. Smith, banker, of Pomona; F. H. Harwood, rancher, W. A. Johnstone, banker-fruit grower, San Dimas; H. H. Sellers, R. E. Broker, Emmitt W. Parrish, rancher, Glendora; J. B. Stair, banker, Peyton E. Calvert, electric contractor, Azusa; W. M. Griswold, mgr. Fruit Exchange, Henry Dameril, citrus shipper, Covina; R. L. Wood, rancher, T. N. Lambert, rancher, G. E. Cross, walnut grower, Puente; A. W. Richards, realtor, Tobias Larson, publisher, Mrs. E. F. Decker, pres. Woman's club, Claremont; G. S. Parker, banker, I. S. Monroe, broker, Wm. F. Knight, Pasadena; McConnell Paschall, broker, Wm. H. Johnston, secy-treas Oil Co., Walnut Park; H. K. Moore, mgr. lumber company, Arcadia; H. E. Belcher, hardware, T. H. Williams, grocer, A. Durward, rancher, La Verne; B. A. Speis, druggist, Huntington Park; M. H. Paige, hardware, J. F. Brooks, Maywood.

## Along the Paths of Yesterday

A History of Sierra Madre from the files of The NEWS.

FRIDAY, JULY 26, 1907—

A 50-year franchise was granted the Home Telephone Co. by the City Trustees, the franchise stipulating that the company pay 2 per cent of its gross earnings.

N. H. Hosmer has organized the Lemon Club here and announced that a club house will be built.

A delegation from Sierra Madre was in the crowd of 10,000 that celebrated the completion of the Pacific Electric service into Covina on Saturday.

FRIDAY, JULY 28, 1911—

George Ray has resigned as marshal and street superintendent and the city is hunting "a new police force." The job pays \$72 a year and there is no long list of applicants. One of the City Trustees may have to be sworn in.

An ordinance setting aside \$40,000 for purchase of the Baldwin water rights was passed on Tuesday.

Members of the G.A.R. residing in this city were entertained at a camp fire last Saturday by Captain and Mrs. J. A. Osgood in honor of Captain F. B. Seeley, of New York State, who is visiting his daughter, Mrs. Webster. Twelve veterans attended.

FRIDAY, JULY 28, 1916—

Mr. and Mrs. C. G. Rodell, of Spokane, have bought the C. W. Hill property on South Hermosa street, and will make this city their home.

Payment of dog license fees is backward and the City Marshal announces he is going out "to gather in" a hundred or more unlicensed canines.

FRIDAY, JULY 29, 1921—

Governor Stephens is a guest at the home of Mr. and Mrs. Frank Hart and a reception in his honor is being held tonight at the home of Mr. and Mrs. E. C. Newton.

## If You Believe This San Dimas Yarn, Call The Humane Society

Workmen chiseling out concrete over a foot thick in remodeling the swimming pool at the Voorhis school, at Oak Knoll Ranch south of San Dimas, found a live frog imbedded in the hardened mass. The swimming pool was built about two and a half years ago. According to workmen at the school, the frog was lively enough to hop away under its own power after it was dug out. The frog's long imprisonment had made it somewhat translucent, and grains of cement could be seen in its body, but otherwise it was normal, it is reported.

The frog's body was about one inch long. Apparently it had come through the mixing machine, and possibly through the water supply system.—Glendora Press.

Mrs. R. S. Corlett entertained Mr. and Mrs. C. W. Jones, Miss Virginia Jones, and Mrs. Milford J. Thompson at dinner, Monday evening in the patio of her home at 65 East Mira Monte.

Mrs. Jay Cooper returned Friday from a three week's vacation spent in Oklahoma visiting her mother. Mr. and Mrs. Cooper are living at 24 North Hermosa Avenue.

## A BELATED HONEYMOON

MRS. REED SMOOT

Senator Reed Smoot, of Utah, and his bride did not take into consideration the fact that the U. S. Senate would be called upon to ratify the London Naval Treaty when they fixed their wedding date. So they had to postpone their honeymoon until the pact was affirmed. But they were guests of the Hoovers at the White House while the Senate was in session and now they are off on the belated honeymoon to Honolulu. The bride is the former Alice Taylor Sheets. Senator Smoot is chairman of the most important committee of the United States Congress, the Senate's Finance committee.

In contrast with the millions spent by candidates for the United States Senate in Pennsylvania and Illinois, Matthew Neely, Democratic candidate in West Virginia, has filed an expense account of 14 cents. Of course, however, Neely hasn't a Chinaman's chance of becoming a Senator.

## MANY NEW FEATURES IN BUICK EIGHT NOW BEING SHOWN BY SAPP

An achievement in motor-car engineering is recognized by the public in the new 1931 Buick eight cylinder models now on display in the showrooms of E. L. Sapp, Buick distributor at 135 W. Foothill boulevard, Monrovia.

One of the advantageous features of the new eight-in-line valve in head Buick engine is the oil temperature regulator which keeps the oil supply at normal operating temperature under all driving conditions.

Other major improvements are dual carburetion, improved steering gear, new clutch and many other advances in motor car construction. The new cars have maximum speeds ranging from 77 to 84 miles per hour for the different series. Mr. Sapp is showing a full line of the latest thing in motors.

## WELSH MOVES INCOME TAX HEADQUARTERS

Galen H. Welch, collector of Internal Revenue, announced today that his office will move tomorrow to 939 South Broadway. Collector Welch will occupy the entire second floor and a part of the third floor at this new location. The Collector's office will be open for business at 8:30 a.m. Monday, August 4th at his new address, 939 South Broadway. The telephone number will remain the same, Mutual 7381.

Rev. D. E. Robertson spent Wednesday in Hollywood with his family.

## Strong Inaugurates A Policy Of Special Auto Repair Prices

Ott Strong, proprietor of the Cutrate Garage, 949 West Foothill boulevard, Monrovia, has adopted the policy of establishing a repair special each week, when especially low prices are established for certain lines of repair work motor cars most commonly require. His special for this week is noted in his advertisement in another column. He says this policy keeps his employees always busy and the absence of lost time permits him to quote the uncommonly low prices prevailing at his shop.

# Can Kansas Beat These Sunflowers

Grow Like Jack-the-Giant Killer's Bean Stalk In Covina And Upland

Talk about Kansas and sunflowers, listen to this:

Covina is exhibiting one raised by John Ramsey, of School street in that city, that is 18 inches in diameter and two inches in thickness. It grew on a plant 10 feet 5 1/2 inches tall.

Upland has one on display at the chamber of commerce that was raised in the backyard of Mrs. R. C. Williams on Ninth street, in that city "nearly four feet in circumference" and grew on a giant stalk "that stood 10 feet high."

Here is what the Covina Argus in its last issue says about its "biggest in the world" sunflower:

Even sunflower blossoms find it healthful in Covina. Did you ever hear of a flower 18 inches in diameter and two inches in thickness?

John Ramsey, residing on School street, recently exhibited a plant that grew to the height of 10 feet 5 1/2 inches, with the head a foot and a half across. The stem of the sunflower was two inches in thickness at the base; and it is estimated that the "face" contained over 2000 seeds, all of which were larger than the average.

The chamber of commerce had it on a desk for several days this week.

And here is what the Upland News says of the monster flower raised in that city:

A sunflower that can only be described as unbelievably enormous is on exhibit in the chamber of commerce display window. It measures 20 inches in diameter and 46 inches, or nearly four feet, in circumference, the considerable curve of the surface accounting for the apparent discrepancy in the ratio of the two measurements, and the giant stalk stood 10 feet high.

This great sunflower came up as a volunteer in the backyard of a house belonging to Mrs. R. C. Williams on East Ninth street, and, like Topsy, grew and flourished unabated and unaided with either irrigation or cultivation, putting on its Jack-the-Giant-Killer's bean stalk stunt almost unnoticed. But when it blossomed out in all its golden glory it couldn't have hidden its splendor under a bushel measure.

## WARNED TO AVOID THE BLACK WIDOW

Warning that the bite of the "black widow" spider found widely in California is regarded with as much alarm by health authorities as that of rattlesnake, the California Board of Health through the local health department officials yesterday issued a statement urging the public's co-operation in a campaign for extermination of the venomous insect.

The state health authorities will sponsor a concerted movement throughout California against the spider also known as the "hour-glass spider" and by other names. The hour-glass title is derived from a red marking on the under side of the insect resembling an hour-glass.

## IT'S "ANYBODY'S WAR" WITH MORAN AND MACK

Those rib-tickling funny men, Moran and Mack, the Two Black Crows, are doing their stuff for a whole week beginning tonight at the Fox Strand theatre in Pasadena, in "Anybody's War," a screamingly comical comedy-romance.

"Anybody's War" is the story of two Tennessee darkies suddenly whisked into the excitement of the big scrap. They encounter a number of amusing adventures in

CHARLES E. MACK

the trenches. The romantic interest is supplied by Neil Hamilton and Joan Peers, boy and girl from the same town in Tennessee who also become mixed in the farcical embroglio.

Others in the cast are Walter Weems, veteran blackface troupier and writer, Walter McGrail, Betty Farrington, Charles Sellon and Guy Oliver.

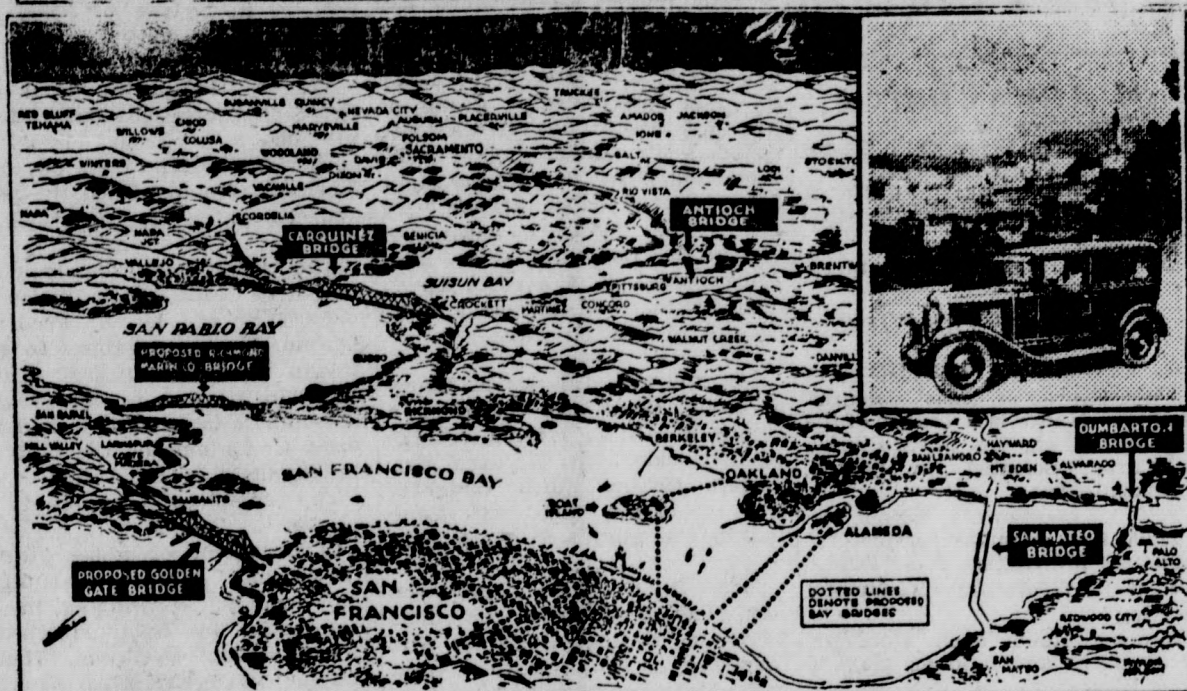

The picture is based upon a novel, "The Two Black Crows" in the A.E.F., by Charles E. Mack, leader of the famous blackface team.

## "BIG HOUSE" BILLED AT THE COLORADO

The Fox Colorado Theatre, Pasadena, will present for one week starting last night one of the most headlined features of this season, Metro-Goldwyn-Mayer's "Big House" featuring a large cast of favorites including Lella Hyams, Chester Morris, Robert Montgomery, Lewis Stone, Wallace Berry, J. C. Nugent and George Marion.

There is a forceful story of romance and drama depicting the

## Bridges—Built And Proposed

If present plans mature, bridges will connect San Francisco, Oakland, Marin County and will break highway travel barriers that have existed for many years. This drawing shows the location of the bridges now in use and those proposed. The car is a Chevrolet sedan, with the driver pointing to the proposed site of the San Francisco-Oakland bridge, borings for which have been made. The bridges will expedite travel on the main north-and-south highways of the Pacific Coast.

love of Chester Morris for Montgomery's sister, Lella Hyams. This picture has just broken all records at the Fox Criterion theatre in Los Angeles.

On the stage will be the national premier of Fanchon & Marco's "Busy Bee" idea, featuring a large cast in many new numbers. The Fox Colorado Band offers new musical numbers. Fox Movietone News presents world events of special interest.

The coming feature attraction is William Haines in "Way Out West."

Walnut husk flies have made an early appearance in Pomona this year and ranchers are taking every precaution against them. First noticed several years ago, the fly has already done considerable damage.

Mr. and Mrs. J. N. Hawks left Tuesday evening for a two week's outing to be spent in their cabin at Meadow Lake in the high Sierras.

## "THE BORDER LEGION" IS ARCADIA FEATURE

"The Border Legion," a feature which has been packing in the fans wherever it is shown, is the outstanding picture which the Theatre Arcadia will offer its patrons during the coming week. It will be shown on Sunday, Monday and Tuesday, August 3, 4 and 5. Prominent in the cast are Richard Arlen, Jack Holt and Fay Wray.

Other features for the coming week are "Near the Rainbow's End," Friday and Saturday, August 1 and 2, and Rod La Rocque in "Beau Bandit," Wednesday and Thursday, August 6 and 7. "Journey's End," "The Big House," "Romance" and "The Unholy Three" are a few of the coming attractions at the Arcadia.

## Money Earned By Forests Will Help To Build Highways

The sales of mature and over ripe timber from the Federal forests yielded an income of \$1,195,664 during the year ending June 30. Grazing fees for cattle and sheep using national forest ranges amounted to \$212,930 and special and recreational uses, largely rented summers home and resort sites, \$134,496. Water power development gave the government \$79,112. The total income was \$1,647,360. As national forest lands and resources in California are non-taxable, the Federal Government will return 25 per cent of the receipts, or approximately \$410,000 to the State for distribution to counties in which the forests are located.

AMBULANCE SERVICE

## In Your Garden--Now

What To Plant — What To Do

By JESSIE WARD RUSSELL

### GARDEN NOTES FOR AUGUST

**D**HLIAS, about now, are so apt to look sloppy and the blooms poor. If your's happen to look this way, just cut them off about a foot from the ground and apply about two teaspoonsful of sulphate of ammonia, or Ford Fertilizer, scattering it in a circle about the plant, scratching it in a little and sprinkle with water. A new growth will soon sprout up that will give you wonderful large blooms all through the fall months.

Every garden should have a patch of stevia, a perennial plant blooming during the coldest months. It blooms in long sprays of minute white flowers which are so desirable to mix in bouquets.

Another plant used for the same purpose is the Moschomma, a shrub that blooms in the winter. Its flowers are a delicate pink, born in mist-like sprays.

Porch-plants and hanging-baskets will need special attention now to keep them from dying out. To brighten them up and make them happy, feed them a little blood-meal mixed with leaf mould. About a teaspoonful of blood-meal to an ordinary hanging-basket is about enough for one dose.

In making a fern-bed in the shade of a tree or on the shady side of the house, plant for variety and color, any of the following plants: begonias, fuchsias, coleus, camellias, heucheras, hy-

drangeas, aralias, cyclamen, primulas, cinerarias, scutellarias, aca-

thus, and violets.

Pansies for winter bloom should be planted in the full sun. They want lots of water and a moderate amount of fertilizer.

Tie up your chrysanthemums to strong stakes now before they fall over on the ground and grow out of shape.

Plant Watsonia bulbs now. The watsonia is becoming quite a flower. It comes in nearly all shades now. There is an orange colored one that is especially fine.

The Watsonias bloom so early in the season, and over such a long period, we find them one of our most useful cut-flowers.

### HIGH EFFICIENCY OF SHERIFF'S OFFICE CLAIMED BY TRAEGER

In announcement of his candidacy for re-election Sheriff William I. Traeger points out the establishment of various departments which, he says, has made the Sheriff's office of Los Angeles county one of the most efficient sheriff's departments in the nation. In part the announcement says:

"There has been established under this administration an honor camp which has served its purpose well. It has placed those men on honor who would benefit most by the establishment of such a camp. It has had the effect of rehabilitating men who have transgressed and has given them an opportunity to engage in manual labor under conditions not only benefitting the men and their families, but the county as well.

"The Sheriff's central office has been augmented by the establishment of nine substations scattered at strategic points throughout the county for the purpose of making more effective the Sheriff's office as well as a protection to the public. They have all been instituted in this administration.

"This decentralization of criminal departments is aimed to take care of the sectional needs of the county, and it has brought the various districts of Los Angeles county in closer touch with the forces of the Sheriff of the county than ever before."

### Support For Houser Is Pledged By Many Workers of the G.O.P.

Frederick F. Houser, candidate for the nomination for State Assemblyman from the 53rd District, announces he has received the endorsement of 22 of the 34 members of the Republican County Central Committee from the 53rd District. The endorsement reads as follows:

"We, the undersigned members of the Republican County Central Committee from the 53rd District, after a careful investigation of the qualifications and merits of the several candidates who are seeking the Republican nomination for Assemblyman from the 53rd District, do hereby endorse and declare ourselves in favor of the candidacy and nomination of Frederick F. Houser for said office."

Among those who have signed the endorsement are Florence Conable and C. H. Anson of Monrovia; M. P. Phillips of Sierra Madre, and Clyde E. Johnson of Temple City.

### HER SON MADE HIM

Jack Dempsey, touring the Pacific northwest as a fight referee, made it a point to visit Mrs. Lou James Adams, of Seattle, whose son, the late Tex Rickard, made Jack famous in the boxing game. Mrs. Adams has been a resident of Seattle for many years.

### Real Prosperity Lies Just Ahead Says Shortridge

California will have 19 or 20 Congressmen as a result of the new census and seven or eight of these will come to Los Angeles County in the opinion of Senator Shortridge who has returned to his constituency after an absence of 21 months in Washington. The whole State and particularly Southern California is on the eve of a great era of development and prosperity, he says. Discussing the immediate future, he said:

"Boulder Dam is on the way. This means a new era of prosperity and development. Appropriations have been made, engineers are at work, contracts are being prepared, and while the actual date of construction is uncertain, it is not very far off. The latest move of Arizona to block the project means nothing."

Mrs. G. H. Terwilliger, who has been visiting her daughter, Mrs. Robert Smith of 198 North Lima Street returned to her home in Norwalk, accompanied by her grand-daughter, Wilma Smith.

### RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming the habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.

## TROOP 2 BOY SCOUTS EASILY QUALIFY IN PEDESTRIAN TEST

A special test in which each scout covered a mile, alternately walking and running 50 steps, was taken by members of Boy Scout Troop No. 2 at the regular meeting in the gymnasium of the Congregational church last Friday night. Twelve minutes was the time limit for those qualifying. Scoutmaster Vincent Fleming was in charge of the meeting.

Scouts who passed this test and their time are as follows: Hughie Elkins, 11 minutes; Warren Preston, 11; and Mitsui Kunihiro, 11; Others who took the test were Herbert Grammel, 10 3/4; Michi Nomura, 10 3/4; Sam Hori, 10 1/2; Kendall Heasley, 10 1/2; Kingo Takasugi, 10; and Lloyd Wilson, 9 1/2. Troop members who have already passed this test are Blake Manning, George Smith and Henry Nuetzel.

A knot-tying contest was also featured at the meeting. "Practical Demonstrations on Elementary First Aid" will be the subject of a talk to be given at tonight's scout meeting by Troop committee chairman.

## Six Little Guests For 5-Year Old Girl

Little Miss Marjorie Pickett, daughter of Mr. and Mrs. Roy Pickett of 201 W. Highland avenue, celebrated her fifth birthday on Friday afternoon with a little party for her small friends. The decorations were in pink and green. Miss Marguerite Lalone assisted the hostess in serving lunch to the little folks. Uncle Wiggly Weidman was present and carved a wonderful mission from a bar of white soap for the little hostess. Those present were Margaret Adwell, Idella Taylor, Dorothy Parmenter, Joan Hinkley, Frances Lalone and Lela Pickett.

Mrs. H. J. Buckingham is employed as book-keeper at the Sierra Madre Hardware during the vacation period.

Mr. and Mrs. W. E. Pratt and Mr. and Mrs. Vincent Fleming spent Monday evening playing golf in Pasadena.

Mr. and Mrs. W. R. Morgan and family are spending the summer at Long Beach. They will return in September.

Mrs. James Hill returned Wednesday from San Diego where she has been visiting since Saturday.

Mr. and Mrs. George M. Lehner accompanied by Mrs. Lehner's sister, Henrietta M. Baker, left Wednesday for Lake Arrowhead where they will visit another sister, Mrs. Kathryn Kinne. Mr. and Mrs. Lehner and Mrs. Baker were dinner guests of Mr. and Mrs. Roy R. Huntley at Eagle Rock.

## Woman's Club Notes

MEMBERS of the executive board of the Woman's Club met last Friday with the president, Mrs. E. E. Bacon, at the club house to continue plans for the fall term of the club.

The report of Mrs. H. B. Hersey on insurance of the club house and contents was accepted and authorization given to place state indemnity insurance on club employees. Mrs. Hersey with her committee of last year, composed of Mrs. Emil Sturmthal and Mrs. Ethel Davis, were continued as a standing committee on insurance for the current club year. The president appointed Mrs. William R. Lees chairman of the house committee and was empowered to dispose of useless furniture and old materials in the basement to the Goodwill Association, and a contract was awarded Walter Annas for tinting of the caretaker's apartment.

A dyeing and sewing bee will be arranged to renovate club house curtains before the fall opening of the club.

Bridge teas will be held on the first Wednesday of the club months and will be in charge of Mrs. George Lehner.

Petunias, verbenas and convolvulus were reported by Mrs. John H. Osgood as planted in the club house garden for special color scheme, in preparation for the fall flower show.

Mrs. William Middough is in charge of arrangements for the next board meeting which will be in the form of a picnic at Redondo Beach where Mrs. Bacon is spending her vacation. Members present at yesterday's meeting were: Mesdames Bacon, Osgood, Hersey, Lees, Middough, John H. Robertson, R. S. Corlett, Emile Smith; Miss Laura Cadmus, and Mrs. W. E. Pratt, press chairman.

## Eventful Vacation For Two Local Boys

Charlton Schwartz and Robert Karicofe have returned from a month's motor trip covering 4088 miles. The boys had an interesting time in the Yosemite and Yellowstone Park. One week was spent at a Dude Ranch at Jackson's Hole at Yellowstone, while their car was being repaired. Much of their time there was spent in the saddle. Charlton Schwartz and his father, Preston Schwartz, accompanied by his brothers Sam Schwartz and Preston M. Schwartz, are spending a week at their beach cottage at Balboa. A sister, Mrs. William Wright, of Nevada, joined them there this week end. Robert Karicofe is spending the week at Lake Arrowhead. Preston M. Schwartz will leave during the coming week to resume his studies as U.C. in Berkeley.

## County Contributes To Maintenance Of Pasadena Jr. College

Los Angeles county will contribute \$77,243.57 to the maintenance of the Pasadena Junior College district, of which Sierra Madre is a part, during the school year of 1930-31. County Superintendent Upjohn says it represents the tuition of pupils of the county living outside the school district. All told the county will disburse \$217,096 for the support of junior colleges within the county boundaries. The Compton school will receive \$63,017.96, Glendale \$40,370.90, Long Beach \$34,374.61. The sum of \$56,429.29 will be paid other counties whose junior colleges are attended by pupils from this county.

## FRANCES ROBERTSON HAS A BIRTHDAY PARTY

Frances Caroline Robertson celebrated her sixth birthday Tuesday afternoon by entertaining a few friends on the lawn of her home at 43 W. Laurel street. "Uncle Wiggly," (O. T. Weidman) was present and carved a mission from soap for the amusement of the children. Games were played on the lawn. Those present were Virginia Lee Liscomb, Freddie Pagenkopf, and Allen Robertson. Ice cream and a birthday cake with six candles were served.

Miss Hallie Buie, head of Carolina Girl's School in Seoul, Korea, and the aunt of Prentiss Buie, of this city, is now en route here. She will pay a short visit at the Thomas P. Buie home.

## NEW SCHOOL (Continued From Page One)

ing territory. The work is progressing on schedule. One-third of the concrete for the whole structure has been poured; 3294 cubic yards of concrete and 128 tons of reinforcing steel will be needed to bring the building to completion.

W. J. Powell of the firm of architects Marsh, Smith and Powell, who designed the building, visited the school on Tuesday and declared that of half a dozen new buildings he had seen in the past week the Sierra Madre structure showed the most careful workmanship.

Mrs. J. Annas and son Jack, of 90 South Hermosa avenue, are enjoying a three week's vacation in the form of a motor trip to Portland and Seattle.
